

PROJECT REFERENCES

Ideal over wood or concrete subfloors in multi-family, renovation projects and custom homes, FIRM-FILL® 3310+ helps maximize sound control and creates a flat, durable surface for finished floor coverings. FIRM-FILL® 3310+ offers an innovative formulation that decreases the amount of water used while enhancing the rock-solid floor strength, up to 3300 psi. Below is a small sample of projects that have utilized FIRM-FILL® 3310+.
